WHAT IS SEARCHWORKS PLUS?

SearchWorks Plus is a solution where search results from multiple sources can be combined into a custom report to integrate into your systems via a REST API.

All searches are done **'LIVE'** to avoid supplying information that is out-of-date and is charged on a per search basis. This means **no hidden registrations or monthly subscriptions.**

CLOUD HOSTED Utilising Cloud Technology greatly increases the reliability and uptime of our application; this means you can carry on with business as usual without unnecessary interruptions.
